- English
- Gujarati
- Hindi

PROJECTS

Portfolio Management System

Technologies:- HTML, CSS, Javascript, PHP, MySQL.

- Portfolio Management System is a web application that is helpful for both job seekers and job providers. Here users can make and manage their portfolio by themselves.

Hack-Surge An Advanced VAPT Tool

Technologies:- Python, Python(Flask), HTML5, CSS3, Bootstrap, SQLite.

- Hack-Surge An Advanced Vulnerability Assessment and Penetration Testing (VAPT) Tool is designed to enhance cybersecurity by identifying, analyzing, and mitigating vulnerabilities in computer networks and systems. The tool integrates multiple security testing techniques into a single, efficient, and interactive platform, enabling organizations and security professionals to strengthen their defenses against cyber threats.
